

Dear Parent, The start of a new term is always marked with anxiety, tears and apprehensions. Within the span of a month, however, the little ones have adapted to the new environment and the nursery routine with ease. We will provide a sneak peek into their monthly activities through our newsletters and keep you updated on your child's progress and learning. The Orientation Program essentially introduced and welcomed parents to become an integral part of the EYEG family. Settling the children into the daily routine is a daunting task amidst their tears, but our experienced staff ensure that the transition is smooth.
